DIVORCE

A divorce is a Court Order that legally ends a marriage.

To obtain a divorce you need to satisfy to the Court that you and your spouse have lived separately and apart for **at least twelve (12) months**, and that there is no likelihood of getting back together.

To obtain a divorce you must file an application with the Court either solely or jointly.

The filing fee for a divorce application is currently \$800 or \$265 if you can demonstrate financial hardship.

You can also apply for a divorce if you've separated and live under the same roof, but you will need to provide extra evidence that you are living separately.

If you make a sole application, and have children under the age of eighteen (18) years, you will need to attend the Court hearing.

Parenting issues, division of property, child support and maintenance **must** be dealt with separately.
